PROFILE

Second-year web and mobile development student at iPNet Institute of Technology (Lomé, Togo). I build digital solutions that work on the ground and lead impact projects in agriculture, education and girls' health. Winner of TCC Hack & Defend 2026 and QYLC 2026.

PROJECTS

AgriFlash — Founder 2026 – present

- Platform connecting farmers with buyers to cut post-harvest losses: post a harvest in under a minute, map of offers, WhatsApp contact.
- 1st prize, TCC Hack & Defend 2026; selected for NanaTech 2026 and Startup Loop · Innov'Up.
- Prototype: HTML, CSS, JavaScript, Leaflet.js, Chart.js. MVP: React, Node.js, Express, PostgreSQL.

HANDOO — Technical lead (team of 3) 2025 – 2026

- Mobile app connecting clients with local artisans (team project, iPNet).
- Technical coordination, architecture, UML/Merise modeling; Flutter, Firebase.

EcoComfort — Founder 2026 – present

- Washable sanitary pads made from recycled materials; 5 prototypes. Top 20, URBIS Foundation 2026.

AcadPro — Communications & outreach 2026

- Outreach to 60+ private schools in Lomé: contact database, strategy, email templates, campaign launch.

NetSupervisionApp — Academic project 2026

- Network monitoring app in Python: Tkinter interface, MySQL database, CRUD operations.
